Career Objective

Motivated Computer Science undergraduate specializing in Cloud Native Software Engineering, with a strong foundation in Python, Java, SQL, cloud technologies, and application development. Passionate about emerging technologies and continuous learning, with strong communication, problem-solving, teamwork, and adaptability skills. Seeking to apply my technical knowledge and contribute effectively in a technology-driven environment.

Education

BACHELOR OF TECHNOLOGY (B.Tech), KL UNIVERSITY 2023 – 2027
SPECIALIZATION : CLOUD NATIVE SOFTWARE ENGINEERING CGPA : 8.82

INTERMEDIATE, SARADA EDUCATIONAL INSTITUTIONS 2021 – 2023
MARKS : 868/1000

STATE BOARD OF SECONDARY EDUCATION, SUBHODAYA E.M SCHOOL 2021
MARKS : 594/600

TECHNICAL & PROFESSIONAL SKILLS

- **Programming:** C, Java, Python, SQL
- **Cloud & Databases:** AWS (Basics), Oracle Cloud Infrastructure, MongoDB, SQLite
- **Professional Skills:** Communication, Problem Solving, Team Collaboration, Adaptability, Debugging, Analytical Thinking
- **Web & Application Development:** HTML, CSS, JavaScript, Flask
- **Emerging Technologies:** Cloud Computing, Modern Software Development

Project

- AI-Powered Pet Adoption Portal**, *Tech Stack: HTML, CSS, JavaScript, Python/Flask, MongoDB, AWS, AI*
- Developed a cloud-based pet adoption platform with pet listings, user registration, and adoption request management..
 - Deployed the application using AWS for scalable access and data management.

- KUBERNETES BACKUP, RESTORE & MIGRATION**,
Tech Stack: Kubernetes, Velero, Docker, Python, Flask, YAML, AWS
- Developed an application-level Kubernetes backup and restore solution using Velero.
 - Implemented cross-cluster migration of Kubernetes workloads and application resources.
 - Configured Kubernetes manifests and deployment resources for containerized application management.
 - Designed the solution to support backup, disaster recovery, and cloud-native workload migration.

Certifications

- MONGO DB ASSOCIATE DEVELOPER
- AUTOMATION ANYWHERE
- Oracle Cloud Infrastructure 2025 Architect Associate
- Oracle Redwood Application 2025 Developer Associate
